SPECIAL RULES.

1. Bulletin Boards are located at San Francisco, San Jose, Gilroy, Pajaro, Salinas, San Luis Obispo, Surf and Santa Barbara; also at Alameda Mole, San Jose, Boulder Creek and Santa Cruz.

2. Train No. 10, all west-bound extras, and trains on the Tres Pinos Branch will register at Carnadero. At registering stations which are day and night telegraph stations and which are not regular stops, first-class trains need not stop to register, or to check the register, or to make out check of train register form 2127, but will throw off a register ticket form 2588 to the operator giving the information required by the register, reducing speed if necessary, and the operator will then register for them. Conductors and operators will comply with Rule 96 at registering stations where trains are not required to register, the same as at non-registering stations, the operator notifying all opposing trains which are of the same or inferior class to the train taking down signals. All trains going via the 3d rail track to and from Santa Clara will register at Santa Clara.

3. Standard clocks are located in the Dispatcher's office San Francisco, Yard Master's office San Francisco, Machine Shops 16th St., S. F., Telegraph office San Jose, Gilroy, Tres Pinos, Pajaro, Santa Cruz, Castroville, Pacific Grove, Salinas, Santa Margarita, Dispatcher's office San Luis Obispo, Telegraph office Surf, Lompoc, Santa Barbara, Alameda Mole, Alameda Point and Boulder Creek.

San Jose yard limits, from Santa Clara to Valbrick on the standard gauge line, and from Santa Clara to Dougherty on narrow gauge line.

Trains must reduce speed to 15 miles per hour between San Jose Passenger Depot and the west end of Guadalupe River trestle. East-bound trains must get an "All right" signal from the switch tender at switch to old main line (or roundhouse track) before fouling said junction switch. As Guadalupe River trestle is not provided with sidewalk, care should be taken to avoid stopping passenger trains thereon.

Alameda yard limits, from Alameda Mole to 14th St., Oakland, and to High St., Alameda.

Within these limits extras and yard engines will run under control, keeping sharp lookout for each other. Yard engine crews' attention is called to rule 337. All other yard limits are indicated by yard limit signs.

b. **Yard and light road engines will run to the right between Alameda Mole and Oakland Junction and must be fully protected when using track between Oakland Junction and Alameda Junction and between Alameda Point and Oakland Junction.**

c. **Double track extends from 3d & Townsend St. Station to 18th St., S. F., from Ocean View to Holy Cross and from San Bruno to San Jose. All trains will run to the right between these points. The switches at the end of double track at 18th St., S. F., Ocean View and Holy Cross will be handled by switch tenders, but trains must approach them carefully, speed not exceeding 8 miles per hour. In the absence of the switch tenders, trainmen will handle switches, which must be left set for east-bound main track at 18th St., S. F., and Holy Cross, and for the west-bound main track at Ocean View. Conductors of all trains must throw off form 2588 properly filled out at switch tender's house at 18th St., S. F., and Holy Cross. Engineers approaching San Bruno and Baden must sound 1 short, 1 long, 1 short — ——— — blast of the whistle if they wish switch lined up for track via Tanforan, and 2 short, 1 long, 2 short — — ——— — — blasts of the whistle if they wish switch lined up for track via South San Francisco. Trains approaching San Bruno from South San Francisco must sound one short, one long and 2 short — ——— — — blast of the whistle if they wish switches lined up for the east-bound main line.**

d. **The top blade on double arm pole west of the Signal Tower at San Bruno, on the Tanforan track, will govern the movements of the east-bound trains straight through on east-bound track. The lower blade on the same pole will govern the movements of east-bound trains in crossing over to west-bound track or on to spur track.**

The top blade on double arm pole west of the Signal Tower, on the South San Francisco track, will govern the movements of east-bound trains straight through on east-bound track. The lower blade on the same pole will govern the movement of trains on to west-bound track or spur track.

The top blade on the double arm pole east of the Signal Tower, will govern the movements of west-bound trains via Tanforan. The lower blade on the same pole will govern the movements of west-bound trains via South San Francisco.

b. If semaphore of block system is at danger before a train enters the block, or is at safety and does not change to danger when a train enters the block, the train must stop, send a flagman in advance immediately, wait five minutes after the flagman has started, and then proceed under full control, not exceeding six miles per hour, until the train passes out of the block.

c. Inside of block system limits, between San Francisco and San Bruno, trains arriving at stations where they expect to meet and pass other trains must not occupy the main track between switches until the expected train has passed the signal at opposite end of the adjoining block unless the opposing train has lost both right and class as prescribed by Rules 4 and 82 or at the expiration of a time order; otherwise the train standing in the overlap will hold in delay approaching trains.

7. **On double track, trains must not under any circumstances, pass between a station and a train on the opposite track receiving or discharging passengers; and when on the opposite track fartherest from the station, may only pass a train at very slow speed and with great caution when a train is receiving or discharging passengers.**

8. **Switch at Baden will be handled by switch tender between the hours of 7 a. m. and 7 p. m. Trains must approach this point carefully, speed not exceeding 8 miles per hour. c. S. P. Co. trains and San Jose, Los Gatos & Interurban Ry. Co. cars will use S. P. Co. tracks from the junction between Campbell and L. G. & S. J. road to L. G. & S. J. road jointly. S. P. Co. trains 803 and 804 have right over San Jose, Los Gatos & Interurban Ry. Co. cars on joint track, but must come to a stop before going on joint track and not exceed a speed of ten miles an hour over joint track. All other S. P. Co. trains must first come to a stop before going on joint track and send a flagman in advance immediately, wait five minutes after the flagman has started and then proceed under control at a speed not exceeding six miles per hour until the train has passed off joint track, taking particular care not to close down on the flagman ahead until he has reached the end of joint track. All such other S. P. Co. trains must be protected to the rear as per rule 99.
